SANI-CARE SELECTS SPILO FOR EXCLUSIVE DISTRIBUTOR

Los Angeles, CA – June 2009 – Spilo Worldwide is pleased to announce an exclusive distribution agreement with Sani-Care, a company committed to providing the professional beauty industry with disinfectant products for maintaining a clean and hygienic experience for salon customers. Sani-Care was founded in 2003 and manufactures Sani-Tablet® and Sani-Soft™.

Sani-Tablet is the only EPA registered sanitizing tablet that is safe for soaking feet. Its patented formula is effective against 99.99% of bacteria and athlete's foot fungus, and eliminates cross contamination by sanitizing the pedicure water while feet are soaking. Drop one tablet in a whirlpool foot spa prior to starting the pedicure service. Sani-Tablet cleans the screens, PVC pipes, micro jets and filtering systems as the foot spa drains. Then, the salon can just clean and disinfect the foot spa between clients per their state regulations. This added layer of protection gives salon clients the confidence they will receive a safe and healthy service. Sani-Tablet comes in a box of 100 tablets, conveniently packaged in pop-out strips for ease of use.

Sani-Soft Effervescent Pedicure Tablet and Skin Softener is the ideal complement to Sani-Tablet, adding a soothing pedicure soak to every service. It moisturizes the skin, softens cuticles and whitens nails. Sani-Soft is non-toxic and includes soothing ingredients, such as Aloe Vera. The product is available in Peppermint to relax and refresh, or in Pomegranate to soothe achy feet. Sani-Soft also prevents mineral deposits and scaling build up in the pedicure bath for prolonged equipment life and ease of cleaning. Sani-Soft and Sani-Tablet are formulated to work

Manufacturer, International Distributor & Importer Serving The Beauty Industry Since 1942

together for the ultimate experience in salon safety. Sani-Soft is available in a jar of 150 tablets.

Spilo Worldwide will begin exclusively distributing Sani-Care products effective July 1, 2009. Spilo Worldwide is a leading manufacturer, master distributor and importer to the professional beauty industry for over 65 years.
